

Press Release

Successful Closing: GOM Joins the ZEISS Group

Oberkochen/Braunschweig | 19 June 2019

ZEISS has confirmed that the acquisition of GOM, a leading provider of hardware and software for automated 3D coordinate measuring technology, has been concluded successfully. With the completion of this transaction, GOM has become part of the ZEISS Industrial Quality & Research segment (revenue in 2017/18: 1.549 billion euros). The legal form of the GOM companies in Germany and abroad will remain unchanged. The successful cooperation with the global sales partners will be continued.

Both ZEISS and GOM have enjoyed strong growth in the past years and proved successful on the market. The aim is to further strengthen this leading technological position together, especially in the area of optical digitization systems. The combination of existing products and solutions as well as joint innovations in the future will lay the foundation for shaping and entering new markets.

GOM GmbH develops, produces and distributes software, machines and systems for industrial and automated 3D coordinate measuring technology and 3D testing. Founded in 1990, the company is headquartered in Braunschweig, Germany, and has a global workforce of about 600 people. Its customers include international companies from the automotive, aerospace and consumer goods industries as well as research institutions and universities. In fiscal year 2017/18, the company generated approximately 150 million euros in revenue.

About ZEISS

ZEISS is an internationally leading technology company that operates in the fields of optics and optoelectronics. In the previous fiscal year, the ZEISS Group generated annual revenue totaling more than 5.8 billion euros in its four segments Industrial Quality & Research, Medical Technology, Consumer Markets and Semiconductor Manufacturing Technology (status: 30 September 2018).

For its customers, ZEISS develops, produces and distributes highly innovative solutions for industrial metrology and quality assurance, microscopy solutions for the life sciences and materials research, and medical technology solutions for diagnostics and treatment in ophthalmology and microsurgery. The name ZEISS is also synonymous with the world's leading lithography optics, which are used by the chip industry to manufacture semiconductor components. There is global demand for trendsetting ZEISS brand products such as eyeglass lenses, camera lenses and binoculars.

With a portfolio aligned with future growth areas like digitalization, healthcare and Smart Production and a strong brand, ZEISS is shaping the future far beyond the optics and optoelectronics industries. The company's significant, sustainable investments in research and development lay the foundation for the success and continued expansion of ZEISS' technology and market leadership.

Today the ZEISS Group is represented in almost 50 countries. About 30,000 employees worldwide work at around 60 sales and service locations, more than 30 production sites and about 25 research and development facilities. Founded in 1846 in Jena, the company is headquartered in Oberkochen, Germany. The Carl Zeiss Foundation, one of the largest foundations in Germany committed to the promotion of science, is the sole owner of the holding company, Carl Zeiss AG.

ZEISS Industrial Quality Solutions

ZEISS Industrial Quality Solutions is a leading manufacturer of multidimensional metrology solutions. These include coordinate measuring machines, optical and multisensor systems, microscopy systems for industrial quality assurance as well as metrology software for the automotive, aircraft, mechanical engineering, plastics and medical technology industries.

Innovative technologies such as 3D X-ray metrology for quality inspection round off the portfolio. In addition, ZEISS Industrial Quality Solutions offers a broad global spectrum of customer services with ZEISS Quality Excellence Centers close to its customers. The company is headquartered in Oberkochen. Production and development sites outside Germany are located in Minneapolis in the USA, Shanghai, China and Bangalore, India. ZEISS Industrial Quality Solutions is part of the Industrial Quality & Research segment.
